Harriman & Co.—It is reported that the Rockefeller interests are bullish for a moderate upward movement in the stock market during the next thirty days. The Morgan party has been accumulating heavily on the decline, and we think it will become very aggressive soon after the return of J. P. Morgan, if the crop outlook is good.

W. B. Hibbs & Co.—There is still talt of a bull movement especially in Steel incidental to the return this week of J. P. Morgan. Investment securities at present level looks like a purchase.

The \$22,500,000 4% per cent New York Central lines' equipment trust certificates offered by J. P. Morgan & Co., the First National Bank and the National City Bank this morning, have all been sold.

. A. G. Plant & Co.—Scattered rains in Northwest has caused strength in mar-ket. Gas is strong on news that they are about to get some valuable city contracts. Think the market wants to go up, but lacks a leader.
